WORK EXPERIENCE

Data Analyst & Power BI Developer | Enigma Data, Delhi, India

Nov 2024 – May 2025

- Delivered interactive Power BI dashboards with DAX for real-time business metric visibility across e-commerce platforms (Nykaa, Amazon), empowering stakeholder decisions with self-service analytics.
- Engineered automated Python scraping pipelines (Selenium/BeautifulSoup) to harvest large-scale market datasets, cutting manual effort by ~70% and enabling faster time-to-insight.
- Optimized multi-join SQL queries, reducing data retrieval latency by ~40% and streamlining end-to-end reporting pipelines.
- Architected Azure Blob Storage pipelines with automated error-handling, ensuring high data integrity across daily batch processes.
- Collaborated with cross-functional stakeholders to translate business requirements into analytical deliverables and dashboard metrics.

Junior Software Engineer | Entiovi Technologies, Kolkata, India

Jun 2023 – Aug 2024

- Engineered full-stack MERN stack applications with JWT/OAuth authentication for the Cleared Talent hiring platform serving enterprise clients.
- Designed and maintained RESTful APIs (MySQL & MongoDB), ensuring reliable data flow and sub-200ms response times.
- Improved React.js front-end performance and responsive UX, contributing measurably to increased user engagement metrics.
- Delivered sprint commitments consistently in agile team; participated in code reviews and technical design discussions.

PROJECTS

Jira Task Analytics Dashboard

- Built React + Jira REST API analytics tool for engineering teams — visualizing task velocity, sprint burndown, and team productivity with dynamic charts and paginated grid views.

Restaurant Table Booking & Pizza Ordering System

- Full-stack app (React/Node.js/MongoDB) with real-time order tracking and table reservation; Firebase Authentication for role-based access control.
